

## Clark Forklift

Presently, there are over 350,000 Clark lift trucks performing globally, and more than 250,000 operating in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 distinctive brands of forklifts, with components covering more than 120,000 particular parts for all of its automated equipment. Your local Clark Dealer is your complete source for availability of all your components needs provided by Clark Totalift.

Clark's phenomenal Parts Distribution Centers are conveniently situated in Louisville, Kentucky, which serves both their clients and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our users, Clark remains on the leading edge when it comes to improving productivity and benefiting performance.

Clark Totalift has a very amazing intercontinental support network. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the materials handling industry.

Clark proudly remains an progressive leader of the material handling industry, pioneering safety features such as the worker restraint system. This exceptional commitment to safety is currently a standard feature on every lift truck.

Clark's recurrent mission to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the world to be certified with the internationally approved quality standard ISO 9001 for every one of their manufacturing facilities. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental restrictions, thus placing them in a prevailing industry position.

### Lean Production

Clark has chosen the extremely economical and beneficial system of "Lean Manufacturing" for its assembly plants and application of resources. This system was developed to acknowledge the most effective approaches of production plant management and ensuring maximum proficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

### Engine Design

Clark's product engineers and suppliers join together to perfect the proficiency and excellence of their merchandise while minimizing costs. The contemporary value engineering program combines innovative product growth and provides improved customer support and service within the industry.
